

COAL MINING'S ANNUAL INDEX

for 1985 (Vol. 22)

CATEGORY	PAGE	CATEGORY	PAGE	CATEGORY	PAGE
ACID RAIN	83	FEATURES	86	NEW MINING PROJECTS	88
ALTERNATE ENERGY	83	FORECASTS	86	NEW TECHNOLOGY	88
AUTHORS	83	GOVERNMENT AGENCIES	86	PREPARATION	88
COMPANIES	84	HANDLING & STORAGE	87	SUBSIDENCE	88
COMPUTER	85	HEALTH & SAFETY	87	SUPPORT	88
COUNTRIES	85	INDIANS	87	SURFACE	88
ECONOMICS	85	LABOR	87	TRANSPORTATION	88
ENVIRONMENTAL	85	LEGISLATION	87	UNDERGROUND	88
EXPORTS	86	MAINTENANCE	88	UTILIZATION	89

ACIDRAIN	
Acid Rain bibliography available, January	15
Acid rain control plan need dropping, March	17
Acid rain database available, February	19
Acid rain impact questioned in study, January	15
Acid rain issue likely to stay undecided awhile, February	19
Acid rain study reveals cost is high, October	18
Ammonium ions have acid rain role, July	13
A report from the acid rain front, November	25
Burning coal cleanly—let's do first things first, April	9
Byrd encouraged by reception of acid rain proposals, October	18
Canada announces acid rain cleanup, June	15
Canada sees 'small price' in US paying to fight acid rain, November	20
Canada tones down its acid rain position, April	32
Canada, US continue acid rain debate, February	19
Canadian power pours into New York, March	15
Canadian students participate in acid rain study, November	23
Congress and the priority of acid rain, March	25
Conte acid rain measure rejected, October	69
Cost data may be used in air quality standards, November	20
DOE awards contract to EER, January	15
DOE calls on industry to join scrubbing program, March	17
DOE chooses four cost reducing concepts, October	18
EDF wants SO ₂ listed as pollutant, June	15
EPA surveying US lakes for acid rain effects, February	19
EPA to create acid rain office, February	19
EPA tracking pollutants over Kentucky, November	20
EPA urges anti-pollution law enforcement, May	22
EPA's tall stack regs, August	23
EPA's Thomas sees no clear answers to acid rain, October	18
EPRI reports available, March	17
EPRI undertaking new acid rain study, August	13
Eastern acid rain acidity levels not changing appreciably, March	17
Existing technologies fit to do environmental jobs, June	15
Expert calls for more acid rain research, July	13
Expert says acid rain not harming forests, July	13
Expert says policy to decide acid rain debate, August	13
Florida shows no acid rain damage, February	19
Free mail service on acid rain available, August	13
Illinois General Assembly calls for Illinois coal use, March	17
Kentucky researchers looking for acid rain incidence, August	13
Legislation calls for SO ₂ reduction, May	22
MIT calls for reducing sulfur fuels in summer, May	22
Massachusetts calls for 48-state acid rain program, February	19
NAPAP says acid rain picture to get more clear, June	15
NGA urges US to adopt acid rain controls, May	22
NWF report seen as flawed, March	17
New England goes form acid rain group, October	18
New Hampshire looks to decrease SO ₂ emissions, August	13
New Jersey wants strict control of midwest SO ₂ , November	20
Nova Scotia seeks to reduce acid rain with FBC unit, November	23
Ohio may sell New England energy, October	18
Ohio would be hit hard in AR control plan, March	17
Potential impacts of proposed EPA tall stack regulations, June	54
Research on acid rain hasn't considered effects in West, November	20
Researchers study pollution paths, May	22
SIU scientists aim to see bug eat at sulfur, October	18
Studies find no acid rain crisis in Wisconsin, November	20
Study shows Kentuckians don't want to pay for acid rain controls, February	19
Symms says acid rain controls unlikely, March	17
Tall stacks and "good engineering practice", August	12
US takes lead in sulfur reduction, May	22

Vaughn says US doing well in acid rain programs, June	15
Watersheds surveyed for acid rain, July	13
Waxman concentrates on toxic air pollutants, May	22
White House not endorsing acid rain program, November	20
Wisconsin acid rain crisis in doubt, October	11
ALTERNATE ENERGY	
Cogenation, Refuse to power cogeneration plant, October	17
Natural Gas, DOE secretary calls for natural gas deregulation, February	21
NE utilities want gas plant approval, November	15
Nuclear, Coal and nuclear ranked one and two, April	17
Nuclear generation climbs 12% in 1985, August	16
Nuclear power: alive and kicking, June	12
Oil, USSR using more oil than five years ago, January	16
ASSOCIATIONS (See Companies)

Colombia, Carrington mining project in Colombia, April	23
Colombia reports large exports from Cerrejon project, October	22
Colombian Coal faces stiff competition, January	16
Suckers' silver lining, The, October	9
England, Britain plans synfuels conversion, September	23
British coal strike dies but won't fade away, April	15
British control systems advance toward full automation, February	64
British strike refuses to go away, March	19
England advance monolithic pump packing, November	22
England using radio-controlled haulage system, November	22
European coal production drops, July	18
Foster Wheeler wins contract, August	21
In-seam seismic surveying, February	33
MS International reorganizes its divisions, February	74
Mining '85 exhibition set to open in England, May	23
NCB reports strike-related losses, October	20
New mine opening in Leicestershire, England, March	21
France, French take hard look at water jets, November	23
Surface mining increases in France, April	23
Greece, Coal storage facility to be built in Greece, May	23
Luminus Crest selected for Greek expansion project, September	23
Hungary, Haldex method of coal retrieval from waste, March	21
Self advancing shields with roof chutes, February	30
India, India's coal output a record, September	29
India and USSR form coal union, May	23
Indonesia, Indonesian coal exports expected to begin by 1987, November	23
Indonesian mine expanding, March	21
Ireland, Ireland converting oil plant to coal, August	21
Israel, New coal-fired power station under construction in Israel, May	23
Japan, Goodyear to buy stake in Japanese firm, May	64
Japan commissions world's first coal oil mixture carrier, September	29
Japan plans to encourage Pacific Rim brotherhood, October	22
Japan, France to develop coal, August	21
Japanese build new power plant, April	23
Japanese firms buy Chinese steam coal, August	21
Japanese testing COM, February	20
Nerco, Mitsubishi form joint venture, November	22
Will the sun rise again on Japan's steam coal imports?, March	34
Pakistan, Coal research center reorganizes in Pakistan, May	23
Pakistan allots funds for mine, August	21
Pakistan gets US aid for coal project, September	29
Philippines, Philippine National Oil seeks loan for new mine, March	21
Philippines to distribute energy with new funds, August	21
Scotland, Coal production record for one month set by Strathclyde shearer, November	23
South Africa, South Africa establishes production record, August	21
South Africa to get new coal plant, October	20
South Korea, Korean coal loading terminal opens, May	23
South Koreans find coal in Alaska, September	29
Sweden, Sweden inaugurates world's largest coal refinery, September	29
Sweden's coal use decreases, March	21
USSR, Japan steel makers agree to import coking coal from USSR, September	29
India and USSR form coal union, May	23
Russia starts construction on new surface mine, November	22

Russian mine fire still burning after 3,000 years, May	23
USSR to build railway to coal fields, September	29
USSR using more oil than five years ago, January	16
USSR's coal output declines, April	23
West Germany, IBH's Esch sentenced to three-year term, February	73
West Germany using tunneling machine, October	22
Yugoslavia, New mine opening in Yugoslavia, March	21
Many Western producers face tougher competitors, foreign and domestic, March	28

FEATURES

A flat year ahead, Guccione, Eugene, January	22
A report from the acid rain front, Bagge, Carl, November	25
AMC coal convention preview, Smith, Irene J., April	23
Aerial cableways cut costs on long steep hauls, Bonasso, Sam G. & George, Tom J., November	38
Authentic manager, The, Horton, Thomas R., June	7
Automatic flocculant control improves thickener performance, Machling, Kevin L., August	48
Black lung taxes and the half-full bottle, Bagge, Carl, May	25
British control systems advance toward full automation, Wood, Richard, February	64
Burning coal cleanly—let's do first things first, Green, Leon Jr., April	9
Canada tones down its acid rain position, Bagge, Carl, April	32
Canadian coal moves slowly into 1985, Sprouls, Mark W., January	30
Coal and the federal deficit, Bagge, Carl, February	27
Coal-rail controversy—a communication problem, CSX Corp., April	108
Congress and the priority of acid rain, Bagge, Carl, March	25
Conveyor skirting can cut costs, Stahura, Richard P., February	44
Costing the 1984 UMW-BCOA wage agreement, Lawson, Joseph W.R., II, March	50
Designing a 1000-tpd prep plant with an eye toward maintenance, Dietzel, Charles M., June	34
Determining front-end loader productivity and costs, Loy, Michael D., July	46
Diagnosis and reduction of mine roof failure (Part 2), The, Moebis, Noel and Stutchman, Raymond, March	42
Diagnosis and reduction of mine roof failure, The, Moebis, Noel N., Stateman, Raymond, February	52
Dissecting mine performance with a microcomputer, Britton, Scott G., August	52
EPA's tall stack regs, Bagge, Carl, August	23
Estimating production potential: A program you can use, Loy, Michael D., February	58
Estimating truck cycle time and costs, Loy, Michael D., August	42
Fighting fatalities and injuries: What to expect in 1985, Earhard, P., March	38
Five advanced cleaning processes bring desulfurization within reach, Laurila, M.J., September	36
Freedom mine sets sights on 9.9 million tpy, Jackson, Dan, July	24
Global marketing: a US producer's view, Stott, Charles E., Jr., May	52
Great Plains Coal Gasification Project: Here today, for tomorrow, The, Adam, Bruce Ormsby, January	36
Greenhills stresses flexibility, Sprouls, Mark W., April	102
Honing the competitive edge, Horton, Thomas R., September	34
How to battle burnout, Horton, Thomas R., August	68
How to be an effective decision maker, Horton, Thomas R., January	19
How to eliminate roof and floor failures with yield pillars, Carr, Fredrick, Gardner, Bruce & Martin, Eddie, January	44

How to evaluate belt conveyor idlers, (Part II), Tomsy, Ellis H., December	58
How to evaluate belt conveyor idlers (Part I), Tomsy, Ellis H., November	43
How to increase productivity under the new UMW-BCOA contract, Owens, George A. Jr., June	48
How to specify and select gear drives, Timmerman, Donald N., January	40
How will coal fare in 1985?, Bagge, Carl, January	7
How you can live with the 1984 BCOA-UMWA wage agreement, Owens, George A. Jr., April	110
Incorporating the computer: the new necessity, Adam, Bruce Ormsby, August	34
Is regulation killing coal?, Enoch, Harry G., September	22
Jim Walter experiences mine monitoring, Armstrong, J.D. and McNider, T.E., August	44
Leasing quagmire, The, Bagge, Carl, December	24
Let's merge Energy and Interior, Copulos, Milton R., February	22
Longer delay periods reduce rockfall hazard at contour mine, Stachura, V. and Fletcher, L., May	32
Management controls improve maintenance, Britton, Scott, June	28
Managing high costs through medical monitoring, Michelson, Leslie, October	32
Mine accident liabilities: A Pandora's box, Biddle, Timothy M., October	26
Modular plant economics for the small operator, Crack, Fredrick, September	60
Monitoring with new microprocessor cuts cost of control system, Machling, Kevin L., August	8
Natural gas regulation: an unnatural act, McClure, James A., May	16
Need for a clean coal technology program, The, Bagge, Carl, September	33
New technology improves roof control safety, Scott, Frank E., August	24
One more time: How can you improve productivity?, Britton, Scott G., December	48
Potential impacts of proposed EPA tall stack regulations, Trisko, Eugene M., June	54
Prediction and prevention of rockbursts, Campoli, Alan, December	42
Pressure filtration: A new option for dewatering fines, Snobly, R.J., October	46
Protect us from the protectionists, Marti, Eric, December	20
Quo Vadis, coal slurry?, Jackson, Dan, July	51
Reagan tax proposals disappoint coal, Bagge, Carl, July	21
Remote control promises safety and productivity gains, Murphy, John N., October	38
Selective agglomeration: let's compare the emerging processes, Killmeyer, R.P., September	45
Shippers call for action on rail rate regulation, Bagge, Carl, April	107
Skyline Utah Fuel dedicates unit-train loadout facility, Jackson, Dan, November	28
Spirals recover fines for quick payback, Rogers, John, September	52
Substance of true leadership, Horton, Thomas R., October	50
Suckers' silver lining, Guccione, Eugene, October	9
TRW slagging combustor may boost coal's industrial markets, Guccione, Eugene, July	12
Tall stacks and "good engineering practice", Guccione, Eugene, August	12
Taxes, perceptions and reality (Part 1), Guccione, Eugene, February	9
Taxes, perceptions and reality (Part 2), Guccione, Eugene, March	9
Taxes, perceptions and reality (Part 3), Guccione, Eugene, May	9
Taxes, perceptions and reality (Part 4), Guccione, Eugene, July	7
Taxes, perceptions and reality (Part 5), Guccione, Eugene, August	7
Taxes, perceptions and reality (Part 6), Guccione, Eugene, September	7

FORECASTS

A flat year ahead, January	22
Boom for coal bulk handling predicted, April	19
Canadian coal moves slowly into 1985, January	30
Coal employment to rise according to DoE figures, July	15
Colombian Coal faces stiff competition, January	16
Diagnosis and reduction of mine roof failure (Part 2), The, March	42
Distributors predict year-end sales increase, October	88
EC expects continued capital spending cut, November	16
EIA projects record '84 production, consumption, January	11
EIA says production future is uncertain, April	15

European energy demand forecast to sit still, April	11
Expert sees generation capacity gap by 2010, November	17
Falling oil prices could change oil-coal competition, August	11
Global marketing: a US producer's view, May	52
How utilities handle coal contracts, July	16
How will coal fare in 1985?, January	7
Industry makers predict small gains in 1985, January	15
NCA again revises 1985 coal forecast, August	14
NCA's '85 forecast sees a rise and a fall, January	12
NERC sees decline in electricity supplies, November	15
NERC sees generating capacity increase need, January	12
NPPC forecasts no need for new coal plants, May	17
Nuclear generation climbs 12% in 1985, August	16
Power power: alive and kicking, June	12
Oregon may hold lignite reserves, August	8
Pacific Rim demand to grow, but US share is questionable, February	24
Quo Vadis, coal slurry?, July	51
Suckers' silver lining, The, October	9
Thinking the unthinkable, January	25
Tough times ahead for US coal sales in Europe, August	11
US coal mines have banner year in 1984, June	11
Western coal forecast, February	24
What tax reform will do to mining and coal, October	14
Will the sun rise again on Japan's steam coal imports?, March	34

GASIFICATION (See Utilization)

GAS TURBINE (See Utilization)

GOVERNMENT AGENCIES

BLM (Bureau of Land Management), BLM calls leasing a production aid, July	16
BLM has big leasing concern, May	18
BLM looks for gains on coal freight rates, November	18
BLM proposes LUM guidelines, July	14
BLM recommends revising aspects of Mineral Leasing Act, October	16
BLM reports seeks lease flexibility, October	15
BLM seeks Powder River Basin interest, October	16
BLM seeks data on states for potential leasing, July	14
Cartier asks BLM to consolidate leases, November	16
Environmentalists call for amending of leasing program, March	18
Judge calls a BLM system "illegal", November	19
Reagan administration supports new wilderness areas, October	16
Wilderness regulation amendment proposed, November	19
BoM (Bureau of Mines), Acid mine drainage (in line system), February	39
Alaska gets funds to study selected state lands, October	16
Battery charging, February	36
BoM device measure force of cutting coal, October	16
BoM tests "controlled burnout", March	33
Closure rate measurement system, February	33
Computer program for hoisting, February	36
Continuous haulage with monorail bridge conveyor, February	35
Diagnosis and reduction of mine roof failure, The, February	52
Dust control, February	33
Extended bumper, February	38
Ground fault monitoring, February	33
Longer delay periods reduce rockfall hazard at contour mine, May	32
Maintenance, February	32
Measuring gas content, February	34
Methane detection, February	34
New technology improves roof control safety, August	24
Plug can fill mine openings, August	51
Radar advances detect ground condition hazards, February	21
Radio for mine communications, February	35
Remote control promises safety and productivity gains, October	38
Respirable quartz dust to be studied, January	15
Rock dust measurement, February	34
Roof bolting, February	32
Roof bolting, February	32
Roof bolting, February	32
Section move, February	35
Slack and overload rope protection system, February	36
Tools for use on conveyor belts, February	35
Ignition suppression system, February	35
Microcomputer for maintenance, February	36
American Dept., Rogers wants to see Ex-Im Bank help, October	16
August coal exports highest in years, November	16
DoE (Department of Energy), Burning coal cleanly—let's do first things first, April	9
Clean coal tech receives interest, June	13
Coal employment to rise according to DoE figures, July	15
Cyclone technology may help gas turbine use, April	16
DoE awards contract to EER, January	15
DoE calls on industry to join scrubbing program, March	17
DoE grants funds to Georgetown FBC, November	17
DoE secretary calls for natural gas deregulation, February	21
DoE seeks proposals from small businesses, November	64
DoE selects labs for coal conversion studies, September	23
DoE supporting synfuels development, April	18
DoE turning BIGAS project to GSA, September	23
DoE, DoI merger considered, February	21
Great Plains Coal Gasification Project: Here today, for tomorrow, The, January	36
Great Plains plant seeks closure plan, August	48
Herrington calls for electricity import balance, April	16
Herrington calls for stability and energy security, June	13
Hodel, Herrington confirmed by Senate, March	11
Let's merge Energy and Interior, February	22
McClure sees no merit in DoE, DoI merger, March	18
New fluid bed generation sought by DoE, September	26
New power source ready to generate, November	62
Reliance of electricity imports not a threat, May	18
Research contracts awarded, July	14
Surface gasification reaches maturity, November	18
Vaughn attacks obstruction of coal imports, April	16
Vaughn says US doing well in acid rain programs, June	15
DoI (Department of Interior), ARCO wins appeal in permit	

battle, November	17
CERT seeks voice on federal panels, November	17
Coal leasing should resume, April	16
Dol approves OSM realignment, February	21
Dol, DOE merger considered, February	21
Interior bestows distinguished service awards, July	13
Interior expanding royalty management, August	15
Interior says 104 million tons of coal mined on federal lands, August	15
Hodel, Herrington confirmed by Senate, March	11
Let's merge Energy and Interior, February	22
McClure sees no merit in DoE, DoI merger, March	18
OMB suggests eliminating funds for land acquisition, March	18
DoI (Department of Labor/Labor Dept. needs funds for black lung backlog, November	19
DoT (Department of Transportation), NS has inside track on Conrail purchase, March	11
EIA (Energy Information Administration), Coal and nuclear ranked one and two, April	17
Coal generation rises in '85, September	25
EIA projects record '84 production, consumption, January	11
EIA says production future is uncertain, April	15
Industry shows major decrease in energy use, January	13
Most new utilities coal-fired, May	17
Nuclear generation climbs 12% in 1985, August	16
Production record set in 1984, March	11
Railroads haul majority of 1984 coal shipments, July	16
States reliant on coal had lower energy prices, October	11
US coal mines have banner year in 1984, June	11
EPA (Environmental Protection Agency), Acid rain control plan need dropping, March	9
Burning coal cleanly—let's do first things first, April	9
Coal groups testify against EPA dust proposal, February	20
Congress and the priority of acid rain, March	25
Cost data may be used in air quality standards, November	20
EDF wants SO2 listed as pollutant, June	16
EPA expanding bubble concept, April	16
EPA officials agree on publishing technology guidance, November	19
EPA proposes strip mine fugitive dust regulation, January	13
EPA sets limits on state compliance on SIP, January	15
EPA should scrap stack height rules, April	16
EPA surveying US lakes for acid rain effects, February	19
EPA to create acid rain office, February	19
EPA to list coke emissions as hazardous, February	21

VENTILATION (See Support)

EMPLOYEES APPRECIATE THE PAYROLL SAVINGS PLAN. JUST ASK THE COMMONWEALTH OF PENNSYLVANIA'S STAFF.

"When my husband was living, we used the Bonds we saved through payroll savings to buy our home."
—Kathie Corkle
Pennsylvania Department of Labor and Industry

"The payroll savings plan makes it easy for me to put away a little bit from each paycheck."
—Theresa Beverly
Pennsylvania Department of General Services

"Bonds are also an investment for the country and that helps all of us."
—Gwenn Trout
Pennsylvania Council on the Arts

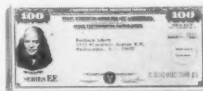

U.S. Savings Bonds now offer higher, variable interest rates and a guaranteed return. Your employees will appreciate that. They'll also appreciate your giving them the easiest, surest way to save.

For more information, write to: Steven R. Mead, Executive Director, U.S. Savings Bonds Division, Department of the Treasury, Washington, DC 20226.

U.S. SAVINGS BONDS
Paying Better Than Ever

A public service of this publication.

STATEMENT OF OWNERSHIP, MANAGEMENT AND CIRCULATION (required by 39 U.S.C. 3685)

- Title of publication: Coal Mining. A. Publication number: 00099961.
- Date of Filing: September 26, 1985.
- Frequency of issue: Monthly. A. No. of issues published annually: 12. B. Annual subscription price: \$35.
- Complete mailing address of known office of publication: 300 West Adams Street, Chicago, Cook County, IL 60606.
- Complete mailing address of the headquarters or general business offices of the publishers: 300 West Adams Street, Chicago, IL 60606.
- Full names and complete mailing address of publisher, editor, and assistant publisher: Publisher—Robert J. Lick, c/o 300 West Adams Street, Chicago, IL 60606. Editor—Eugene Guccione, c/o 300 West Adams St., Chicago, IL 60606. Assistant Publisher—Mark W. Sprouls, c/o 300 West Adams St., Chicago, IL 60606.
- Owner (If owned by a corporation, its name and address must be stated and also immediately thereunder the names and addresses of stockholders owning or holding 1 percent or more of total amount of stock): Maclean Hunter Publishing Co., 300 West Adams St., Chicago, IL 60606; wholly owned subsidiary of Maclean Hunter Ltd., 777 Bay St., Toronto, Canada, M5W 1A7.
- Known bondholders, mortgagees, and other security holders owning or holding 1 percent or more of total amount of bonds, mortgages or other securities: None.
- For completion by nonprofit organizations authorized to mail at special rates: Not applicable.
- Extent and nature of circulation. Average No. copies each issue during preceding 12 months: A. Total No. copies (Net Press Run): 29,525. B. Paid and request circulation: (1) Sales through dealers and carriers, street vendors and counter sales: None. (2) Mail subscription sales: 25,690. C. Total paid circulation (Sum of 10 B1, 10 B2): 25,690. D. Free distribution by mail, carrier or other means, samples, complimentary, and other free copies: 3,090. E. Total distribution (Sum of C and D): 28,780. F. Copies not distributed: (1) Office use, left over, unaccounted, spoiled after printing: 745. (2) Return from news agents: None. G. Total (Sum of E, F1 and 2—should equal net press run shown in A): 29,525.
- Actual No. copies of single issue published nearest to filing date: A. Total No. copies (Net Press Run): 28,356. B. Paid circulation: (1) Sales through dealers and carriers, street vendors and counter sales: None. (2) Mail subscription sales: 25,059. C. Total paid circulation (Sum of 10 B1, 10 B2): 25,059. Free distribution by mail, carrier or other means, samples, complimentary, and other free copies: 2,710. E. Total distribution (Sum of C and D): 27,769. F. Copies not distributed: (1) Office use, left over, unaccounted, spoiled after printing: 587. (2) Return from news agents: None. G. Total (Sum of E, F1 and 2—should equal net press run shown in A): 28,356.
- I certify that the statements made by me above are correct and complete. (Signed) Robert J. Lick, Publisher.
